

Attendance Requirements and Restrictions Surrounding Extracurricular Activities

Students must be in attendance in school on the day of the event in order to be eligible to participate in any school related extracurricular activity. This includes, but is not limited to, athletic practices and competitions, academic team practices and competitions, proms, field trips, and class trips. No early releases will be honored on the day of any prom. Any student suspended from school is also ineligible to participate in any school related extracurricular activity on the date of suspension. This includes attending any event as a spectator.

A student who is suspended (either in or out-of-school) will become ineligible for all extracurricular activities once six (6) days of suspension have been accumulated in a given semester. The school principal will send a letter to the parent of a child who has been suspended. In that letter, there will be a statement about this policy.

There is no distinction between in-school and out-of-school suspensions. If a student suspension is split between the end of the first semester [first twenty (20) weeks] and the beginning of the second semester [second twenty (20) weeks], the accumulated days of the said suspension will be accrued in each of the semesters in which the suspension is served.
